## PREFACE.

---

IN presenting this, our second issue of the Richmond and Manchester Directory, we hope we have supplied a want long felt by the citizens, and trust they will overlook any errors or discrepancies we may have committed. We have done our best to make the work complete and accurate in all its departments, but we do not claim that it is altogether free from errors, as there are many classes to contend with in collecting the information for a publication of this kind, and no matter how great the experience of the compiler, a few errors are unavoidable. The Richmond portion of the work contains 17,331 names—an increase of 726 over the last publication. Multiplying the total number by 4, the ratio used for a similar purpose in New York and other cities, would give Richmond a population of 69,324. Knowing that our work will compare favorably with publications of a similar kind throughout the country, it is our intention to publish it every eighteen months. With the experience gained by this publication, we can assure our patrons that our future issue will be an improvement upon what we have already done, and we shall be thankful to any friend who will take the trouble to point out any errors they may discover, or to suggest where improvement may be added or made. The most numerous names in the Directory are the Smiths, 242; Joneses, 201; Browns, 196; Harrises, 141; Taylors, 158; and the Whites, 76. The following is the number of names under each letter:

A, 579	H, 1,357	N, 243	T, 868
B, 1,729	I, 37	O, 181	U, 31
C, 1,451	J, 946	P, 869	V, 140
D, 713	K, 373	Q, 35	W, 1,496
E, 367	L, 630	R, 868	Y, 64
F, 575,	M, 1,417	S, 1,447	Z, 13
G, 902			

We return our sincere thanks to all who have aided us by furnishing the necessary information, and trust that our humble efforts in the future may meet with the same liberal patronage heretofore extended.

Respectfully, &c.,

SHERIFF & CO.,  
Publishers.

## **Wheeler & Wilson Sewing Machine**

Is without a rival. Can do any and all kinds of sewing, from the coarsest to the finest. No machine excels it. It runs lighter, faster, and with less noise than any machine made.

The latest style is now on the market. It uses a straight needle, and the work passes from the operator.

 Call and see this No. 8.
